

BIRD WATCHING

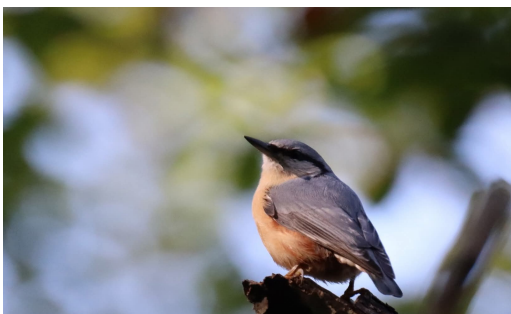

INDIVIDUAL PACKAGE / SERBIA MONTENEGRO CROATIA NORTH MACEDONIA/ BALKANS and EUROPE

We are proud to offer the pinnacle of eco-tourism: birdwatching.

In cooperation with the **Bird Watching Association Serbia, Bird Watching Association Montenegro, Bird Watching Association Europe, Bird Watching Association Croatia**, as well as the **Biological Institute of Belgrade – Department of Ornithology and Wild Bird Protection**, we are opening the doors of the Balkans to those who seek top-level professionalism, equipment, and locations in the world of eco-tourism.

We cover all major migration routes of migratory birds and habitats of resident species. The most influential ornithologists working on the protection and population growth of extremely rare and endangered wild bird species will be your guides throughout any part of the European continent.

Below are just some of the species that can be observed:

SERBIA – Griffon Vulture (*Gyps fulvus*), European Roller (*Coracias garrulus*), White-tailed Eagle (*Haliaeetus albicilla*), Golden Eagle (*Aquila chrysaetos*), Northern Bald Ibis (*Geronticus eremita*), and many other rare songbirds and birds of prey.

MONTENEGRO – Wallcreeper (*Tichodroma muraria*), Collared Pratincole (*Glareola pratincola*), Golden Eagle (*Aquila chrysaetos*), Common Buzzard (*Buteo buteo*), Wagtail (*Motacilla* spp.), and others.

CROATIA – Dalmatian Pelican (*Pelecanus crispus*), Flamingo (*Phoenicopterus* spp.), and various other wild species.

Glob Metropolitan Tours offers tailor-made arrangements for amateur ornithologists and the organization of professional ornithological tours. Our range is as vast as the nature we wish to present to you in its purest, wildest form — untouched places that must remain secret and protected from mass tourism.

We actively participate in youth birdwatching camps in Bosnia and Herzegovina, Croatia, and Serbia during the season, and we are dedicated to supporting ecological development and the preservation of wild bird species.

GLOB METROPOLITEN TOURS provides its clients with professionally guided birdwatching tours led by renowned and internationally recognized ornithologists. Depending on the location and season, we organize field visits and provide all necessary equipment. We guarantee that exceptionally rare wild bird species can be observed in accordance with the agreed tour, season, and habitat.

Our **eco-tourism team** consists of experienced wilderness and national park guides with decades of experience and personal commitment to the preservation of special reserves, national parks, and natural, indigenous ecosystems — a mission that continues to this day./

ALL JOURNEYS ARE TAILOR MADE PROGRAMS AND EACH WILL BE MADE IN ACCORDANCE WITH CUSTOMERS NEEDS.

Glob Metropolitien Tours is at your service for the organization of small group trips and professional ornithological expeditions.
